

## ONE DOWN..ONE TO GO!

### PANSY SALES TALLY

We thought you'd be interested to know that the efforts of Sheila Tarlin and Ruth Berman, coupled with the generosity of the Highland House residents boosted this year's Pansy sales to 368 flats versus 287 last year, an increase of 28%! All the net proceeds from sales help support research for Pancreatic Cancer at U Mass Medical Center right here in Worcester.

*Thank you for your support!*

### ELEVATOR PROJECT MORE THAN HALF WAY DONE!

By now you have used our newly renovated elevator. We hope you like the design and feel. It is quicker, has a higher ceiling, and is more energy efficient than the one it replaced. It even has that

"new car smell!"

Paul and Justin wasted no time, and began tearing down the second elevator immediately after the state inspection. All expectations are that the second one should go quicker than the first.

### IN CASE OF FIRE...

The Worcester Fire Department requests that you to stay in your apartment and wait for assistance. Never use the elevator!

### BUILDING SAFETY STARTS WITH YOU!

Please confirm the identity of any person before you "buzz" them into the building. If you have any doubts as to the identity of the person, do not allow entrance.

Video confirmation on cable channel 900 can also assist you!

### ENJOY THE GROUNDS!

After a rough, cold, snowy April, make sure to take a moment and stroll the grounds. There is beauty at every turn as summer nears it's approach. We are doing our best to continually improve the grounds for your enjoyment.
