

# MIRACULOUS MIDGE!

## BEWARE OF SCAMMERS!

We can't tell you how many tenants have come to us questioning what's a scam call versus what's a real phone call. Our best advise is to screen all calls unless you positively know who the caller is!

If in doubt, let it go to your answering machine where you can validate the call.

We find that most robo scam calls only ring twice before hanging up, and we have also seen a pattern of phone numbers with the first numbers begin with 508-753....

## MIDGE HUGHES IS AWESOME!

We sat with Midge to ask her a few questions about reaching centurion status.

- Her Secret to longevity..
- Exercise daily, and stay active mentally!
- Advise to share... Don't smoke, and drink in moderation!
- Happy moments..

Her husband got a bonus from work, and told Midge, it was time to buy her a car. She only insisted the car have a clock. Her first car was a green Camaro convertible. with no clock!

She remembers first voting for FDR for President. She clearly remembers the Great Depression, and helping tend the family garden to feed neighbors in need in her hometown of Paxton.

- Her hopes for the future generation...

Midge hopes the younger generation can tear themselves away from their cell phones and get more physically active.

Special thanks to Joedy Cooper, Sue Hammerbeck and Barbara Student for making this such a memorable event!

## PANSIES FOR PROGRESS

Highland House's *Petal Pusher* Will once again be promoting Pansy sales. 100% of the proceeds will go to support groundbreaking pancreatic cancer research and patient care at UMass Medical.

Expect delivery by April 10th.
